Jeaneanne – Attached is the latest draft of the EPA-FDEP MOA regarding 404 assumption. I believe we have successfully agreed upon all draft language with the FL staff, with the exception of FDEP's recently proposed edits to Section II.B.(5) on page 6. This section includes language regarding the EPA's review of long-term projects, and we did not attempt to try to finalize this language in consideration of the ongoing discussions about the Notice of Change. I am so pleased to be part of such a fantastic EPA team and appreciate everyone's great and quick work during the past few days to resolve issues and work through various late-breaking suggested edits by FDEP. If you have any questions or wish to discuss this please let us know. Tom
